HARD-TO-FIND METRIC FASTENERS...DELIVERED!

When you're looking for hard-to-find DIN and ISO metric fasteners, Eurolink delivers a classic performance. Whether you need items from our ever-expanding, in-stock stainless steel selection or unique and exotic metric fasteners from Europe, Eurolink sings your song. Call us today for an innovative quote showing you all our options for sourcing your hard-to-find metric fasteners. At Eurolink, we provide a balanced mix of stock and shipping to maintain a constant supply of metric fasteners matched to your demands.

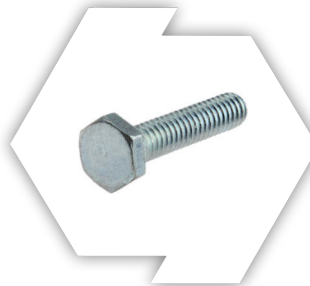

Eurolink is committed to providing you fast HASSLE-FREE ordering, fair pricing, and timely delivery. Are you spending hours searching fastener websites or catalogs? Waiting on hold while a sales rep digs through their catalog to confirm a DIN number? Wondering if your invoice will even be processed correctly? How about worrying whether or not your quoted ship date was just a sales rep's guess? Not at Eurolink! We'll do all the research, and follow up with you personally with a complete quotation. As you order products from Eurolink, you can do so with the confidence that your order will be processed accurately and efficiently — along with the best available pricing and delivery — means HASSLE-FREE to you.

Eurolink delivers any DIN and/or ISO metric fastener in the following materials: Steel (3.6, 4.6, 4.8, 5.6, 5.8, 6.8, 8.8, 10.9, & 12.9); Stainless Steel (A1, A2-70, A2-80, A4-70, A4-80, & C3-80); Other (Aluminum, Brass, Hot Dip Galvanized, Polyamide, Silicon Bronze & More)

In a competitive, fast-paced market, you need every advantage you can find — Eurolink is one of those advantages. We honor orders for virtually any quantity, this enables you to hold less inventory and order fasteners as you need them. But we don't just leave you with empty shelves, we stock what you need so you don't have to. Whether your demand is for full pallets or small package quantities, Eurolink is the first choice supplier for inventory-on-demand. As the nation's leading source for hard-to-find metric fasteners, Eurolink offers access to more than 100,000 quality C-class parts from over 20 partners located in countries throughout Europe such as Germany, Italy, Switzerland, Poland, Spain, France, and Great Britain. Eurolink also offers a variety of freight options that allow you to directly affect your own delivery, based on the urgency of need or demand, while also balancing freight cost. At Eurolink, we tune our act with a balanced mix of stock and shipping to maintain a constant supply of metric fasteners matched to your product and quantity demands.
